## Classic Maine

There is a certain look that is associated with Maine, especially, summer in Maine. It's what Sister Parish knew all about. It's what incoming wannabes would like to come by naturally, but might not quite have the knack.

Classic doesn't mean without personality. Its style is in the subtleties, the nuances of little jokes, appreciation for both humble and elegant, always with an unpretentious overtone, and filled with joy for life.

The Kimball Shop, in beautiful North-east Harbor, might be a good place to get some hints about acquiring the right supplies.

Here is just a tiny glimpse into this jam packed treasure trove.

## Classic Maine

Just down the street is The Kimball Shop Boutique, where ladies shop when they're in town, and personally order items from the owner year round from wherever they are.

Shopping at Kimball's is part of classic, stylish and yet unpretentious, Maine. Sorry these pics aren't great. You'll just have to go to get the full effect.
